

PRESS RELEASE

INTERCHANGE LAUNCHES ITS NEW LOCAL WEBSITE WHICH INTRODUCES AN ONLINE CALCULATOR ALLOWING THE BOOKING OF CASH IN ADVANCE

Prague, 7th September, 2016: Interchange Czech Republic, part of the Interchange Group, one of the leading foreign exchange providers in the world, and in the Czech Republic, where it has 40 local branches, is pleased to announce the launch of its new local website, www.interchange.cz.

The new website offers a fresh and modern look that is optimised for mobile phones and tablets and easily navigates customers across the site. Whilst carrying out the update, Interchange also took the opportunity to unify its' corporate identity across the whole Interchange Group, which now operates in 14 different countries worldwide, including at 8 international airports.

Part of the upgrade to the website includes the introduction of a new online calculator that enables customers to book their currency online and then collect it at any of the 18 Interchange branches in downtown Prague, or at Prague Airport, where Interchange has been operating its 11 exchange bureaux since the beginning of 2016.

Making an order through the online calculator is a simple and straightforward process, plus it offers customers transparent and competitive exchange rates that are updated daily, as well as the ability to book their currency in advance of their travel both out of and into the Czech Republic.

Talking about the new website and, in particular, the online calculator, Marek Nacovsky, the Country Manager of Interchange in the Czech Republic said:

'Since opening our branches at Prague Airport earlier this year, we have been thinking that it would make sense to offer our customers the ability to book their currency online as this speeds up the currency exchange process enormously for both our own staff and, more particularly, our customers. We are delighted with our new online calculator as it is extremely easy to use, and gives customers a number of benefits, particularly a very competitive rate without any sort of commission charge.'

In addition to its 11 exchange bureaux at the airport, Interchange also has several branch offices in central Prague that offer customers the ability to collect their currency after prior booking online. Several of these are near to the main bus and train stations, giving

additional convenience to travellers arriving or departing from the centre. These are in **Prague 1** (downtown), **Prague 2** (I.P.Pavlova) and **Prague 5** (Anděl).
